721 Sierra Pines Road

From the grand entrance you'll appreciate the bright rooms, high ceilings, and large windows capturing the rural landscape and gardens with irrigation. The main floor living features a kitchen made for entertaining with Scott Illott designed and built cherry wood cabinets, breakfast nook and family room.

Adjacent to this is the living room with fireplace, and dining room with french doors accessing to the patio. Past the office/library at the front, follow the curved staircase up to 3 bedrooms, and spacious master bedroom with deck and 5 pc elegant ensuite. The lower level is fully finished with den, media room, kitchen, huge play room and lots of storage with closets and a separate room that would make an excellent wine cellar.
