65 JAMAICA BEACH, RIVIERA BOULEVARD, ST. MARY

The North Coast Highway meanders along the coast in an easterly direction from Ocho Rios; noted for its Tourist related activities, towards Spring Valley Estate (Jamaica Beach), Tower Isle, continuing to the growing Ian Flemming Airport and beyond in St. Mary. Here lies a gem in the rough, undeveloped 3.5 acres of prime Residential/Commercial Development land. It is comprised of three parcels and lies adjacent to the highway with a breath-taking elevated ocean view of the Caribbean Sea or if you prefer the lush vegetation of the hilly interior. The clear blue tranquil waters can be used for snorkeling, diving, or other activities. There is an undeveloped coastline but with a vision the beach can be in place quickly. The area is developing; Commercial/Residential land are in demand. The property is zoned for Commercial and or Residential development. Are you a developer with a vision? Here is a perfect opportunity to stake your claim!
