COUNTRY HOME WITH END OF THE ROAD PRIVACY! This 3+BR, 2BA home sits on 3 beautiful rolling acres. You must see the setting to fully appreciate it. The home features a large bright and open living room, nice sized kitchen that flows into the dining room, master BR with an attached bath and a main floor laundry room. There is a partially finished lower level that has a finished rec room, a craft/exercise room and an exterior entrance. Outside you will find an awesome stained concrete patio and an insulated and heated 28x30 garage with two overhead doors and plenty of storage. There is a sun room building that contains the hot tub right down to the grape lights. Additional outbuildings include the old milk house that has been converted to a storage shed, another shed that was used for making maple syrup, covered storage to keep the toys out of the elements and a wood storage structure. The 3 acre parcel includes a fenced garden and a great rolling lawn. Don't miss out on this one!
