

# Living on Top of it All!

415-991 Mckenzie Ave

\$568,800

Imagine a day in your new home.... the sun peeks in to the top of the high windows to welcome you to the day. As the whole suite fills with light, you come down from the loft to have your morning coffee facing east on the balcony. Cooking in your European style kitchen is a joy! The sleek quartz countertops make for an easy cleanup, then out to tend to your errands on your bike, As you come back through the courtyard you pause under a pergola and bask in the sun. Then you take the chance to enjoy the afternoon shade with a book on the balcony, then maybe a bubble bath to finish off the day. When twilight approaches, you are drawn to your private west-facing patio to watch the sunset with a glass of wine. You turn on the evening lights and watch the fountain to ponder the day's blessings. Bed is only a few steps away and it is the end of a perfect day.
